# WORKING WITH TEXT

1   In **Layer Palette** select **TEXT** layer.

2   Use the **Type** tool click inside the text frame.
Delete the existing text and place your text with **Place command** or type it.
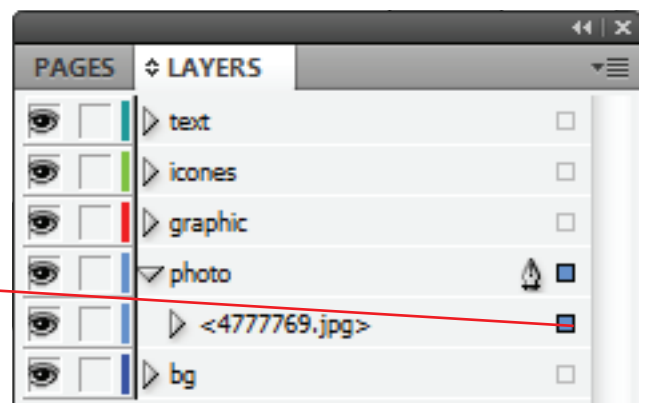

The fonts used you can download at:
bebas.   http://www.dafont.com/it/bebas.font
crimson   http://www.fontsquirrel.com/fonts/crimson

REPLACING IMAGE

1   In **Layer Palette** select **PHOTO** layer.

2   To replace an existing image, go to
File > Place and select your image,
hold down Alt (Windows) or Option
(Mac OS) and click the loaded
image icon on the image you want to replace.

3   To adjust or to resize imported content without moving the frame, use the **Direct Selection**
(that automatically changes to the **Hand tool** when placed over an imported image).
